

## FACT SHEET

**Title:** 2009-15 Game Management Plan Supplemental Environmental Impact Statement (SEIS)

**Proposed Action:** Changes to the 2003-09 Game Management Plan Environmental Impact Statement (EIS) are proposed to update the plan for 2009-15. Strategies that have been accomplished or are no longer a priority have been deleted. New issues, objectives, and strategies are proposed based on public and staff comments gathered over the past several months.

Significant new issues include: hunting near urbanizing areas; improved communications and outreach by the department; re-introduction of antelope; and wolf re-colonization. These new issues with corresponding objectives and strategies have been added to the original 2003-09 issues. Many of the original issues have been updated or modified based on new information and research, changing priorities, or emphasis.

**Location:** Statewide

**Proponent And Lead Agency:** Washington Department of Fish and Wildlife, Wildlife Program
