

2010

WASHINGTON STATE Joint Aquatic Resources Permit Application (JARPA) Form¹

USE BLACK OR BLUE INK TO ENTER ANSWERS IN WHITE SPACES BELOW.

US Army Corps
of Engineers®
Seattle District

AGENCY USE ONLY

Date received: _____

Agency reference #: _____

Tax Parcel #(s): _____

Part 1—Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [\[help\]](#)²

Lake Terrell Dam Channel Restoration and Fish Passage Project

Part 2—Applicant

The person or organization responsible for the project. [\[help\]](#)

2a. Name (Last, First, Middle) and Organization (if applicable)

Whatcom Conservation District

2b. Mailing Address (Street or PO Box)

6975 Hannegan Rd

2c. City, State, Zip

Lynden, WA 98264

2d. Phone (1)

(360) 354-2035 x 131

2e. Phone (2)

(360) 410-6864

2f. Fax

(360)354-4678

2g. E-mail

fcorey@whatcomcd.org

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b. of this application.) [\[help\]](#)

3a. Name (Last, First, Middle) and Organization (if applicable)

3b. Mailing Address (Street or PO Box)

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- If your project might affect species listed under the Endangered Species Act, you will need to fill out a Specific Project Information Form (SPIF) or prepare a Biological Evaluation. Forms can be found at http://www.nws.usace.army.mil/PublicMenu/Menu.cfm?sitename=REG&pagename=mainpage_ESA
- If you are applying for an Aquatic Resources Use Authorization you will need to fill out and submit an Application for Authorization to Use State-Owned Aquatic Lands form to DNR, which can be found at http://www.dnr.wa.gov/Publications/aqr_use_auth_app.doc
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you think you will need a Shoreline permit, contact the appropriate city or county government to make sure they will accept the JARPA.

²To access an online JARPA form with [help] screens, go to

http://www.epermitting.wa.gov/site/alias__resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx.

For other help, contact the Governor's Office of Regulatory Assistance at 1-800-917-0043 or help@ora.wa.gov.

3c. City, State, Zip			
3d. Phone (1)	3e. Phone (2)	3f. Fax	3g. E-mail
()	()	()	

Part 4–Property Owner(s)

Contact information for people or organizations owning the property(ies) where the project will occur. [\[help\]](#)

- Same as applicant. (Skip to Part 5.)
- Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- There are multiple property owners. Complete the section below and fill out [JARPA Attachment A](#) for each additional property owner.

4a. Name (Last, First, Middle) and Organization (if applicable)			
Washington Department of Fish and Wildlife			
4b. Mailing Address (Street or PO Box)			
5975 Lake Terrell Road			
4c. City, State, Zip			
Ferndale, Washington 98248			
4d. Phone (1)	4e. Phone (2)	4f. Fax	4g. E-mail
(360) 384-4723	(360) 739-3404	()	Richard.Kessler@dfw.wa.gov

Part 5–Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- There are multiple project locations (e.g., linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]
<input type="checkbox"/> State Owned Aquatic Land (If yes or maybe, contact the Department of Natural Resources (DNR) at (360) 902-1100) <input type="checkbox"/> Federal <input checked="" type="checkbox"/> Other publicly owned (state, county, city, special districts like schools, ports, etc.) <input type="checkbox"/> Tribal <input type="checkbox"/> Private
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]
3800 Block of Aldergrove Rd
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]
Ferndale, WA 98248
5d. County [help]
Whatcom

5e. Provide the section, township, and range for the project location. [\[help\]](#)

¼ Section	Section	Township	Range
NW	16	39N	1E

5f. Provide the latitude and longitude of the project location. [\[help\]](#)

- Example: 47.03922 N lat. / -122.89142 W long. (NAD 83)

48.875478 N lat. / -122.687962 W long.

5g. List the tax parcel number(s) for the project location. [\[help\]](#)

- The local county assessor's office can provide this information.

390116386470

5h. Contact information for all adjoining property owners. (If you need more space, use [JARPA Attachment C.](#)) [\[help\]](#)

Name	Mailing Address	Tax Parcel # (if known)
Scott & Jennifer Stewart	3876 Aldergrove Rd	390109288075
	Ferndale, WA 98248-8218	
Scott & Barbara Robison	3846 Aldergrove Rd	390109363029
	Ferndale, WA 98248-8218	
Gary & Deon Logan	P O Box 1034	390109388036
	Blaine, WA 98231-1034	
Wayne & Marie Corso	3701 Aldergrove Rd	390116495455
	Ferndale, WA 98248-8759	

5i. List all wetlands on or adjacent to the project location. [\[help\]](#)

Project area is surrounded by forested wetlands

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [\[help\]](#)

Terrell Creek, Unnamed Terrell Creek side channel (no outlet), unnamed seasonal Terrell Creek tributary

5k. Is any part of the project area within a 100-year flood plain? [\[help\]](#)

Yes No Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [\[help\]](#)

The stream channel has been dredged and straightened in the past. It has fairly nice riparian cover of trees and shrubs although some of the steep streambanks are dominated by Himalayan blackberry. The surrounding area is mostly deciduous forest with a few conifers on higher ground. A gravel access road parallels the right bank of the stream channel.

5m. Describe how the property is currently used. [\[help\]](#)

Property is part of the WDFW Whatcom Wildlife Area, Lake Terrell Unit. Area uses include waterfowl hunting and fishing.

5n. Describe how the adjacent properties are currently used. [\[help\]](#)

Rural residences and small farms.

5o. Describe the structures (above and below ground) on the property, including their purpose(s). [\[help\]](#)

The Terrell Creek dam is the only structure on the property.

5p. Provide driving directions from the closest highway to the project location, and attach a map. [\[help\]](#)

From I-5 north of Bellingham, WA take the Grandview Rd/SR 548 exit (122) and drive west on Grandview Rd approximately 4 miles to Northstar Rd. Travel south on Northstar Rd to Aldergrove Rd and turn right (west). Travel approximately ½ mile west to the Terrell Creek crossing and project site access on the left.

Part 6–Project Description

6a. Summarize the overall project. You can provide more detail in 6d. [\[help\]](#)

The purpose of the project is to correct a fish passage barrier on Terrell Creek by restoring approximately 753 lineal feet of channel to allow fish passage over WDFW's dam at the outlet of Lake Terrell. Wooden flashboards in the existing dam will be replaced by pre-cast concrete panels including a v shaped weir. Channel reconstruction will include placement of gravel fill materials and large woody debris for fish habitat. A bypass pipe controlled by a manual valve will also be installed to assist with controlling lake levels. A culvert on a tributary stream will also be replaced to restore fish passage. Riparian planting will follow the instream work. Monitoring and adaptive management will continue for 5 years to ensure stream functions are maximized.

6b. Indicate the project category. (Check all that apply) [\[help\]](#)

- Commercial
 Residential
 Institutional
 Transportation
 Recreational
 Maintenance
 Environmental Enhancement

6c. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

<input type="checkbox"/> Aquaculture	<input checked="" type="checkbox"/> Culvert	<input type="checkbox"/> Float	<input type="checkbox"/> Road
<input type="checkbox"/> Bank Stabilization	<input checked="" type="checkbox"/> Dam / Weir	<input type="checkbox"/> Geotechnical Survey	<input type="checkbox"/> Scientific Measurement Device
<input type="checkbox"/> Boat House	<input type="checkbox"/> Dike / Levee / Jetty	<input type="checkbox"/> Land Clearing	<input type="checkbox"/> Stairs
<input type="checkbox"/> Boat Launch	<input type="checkbox"/> Ditch	<input type="checkbox"/> Marina / Moorage	<input type="checkbox"/> Stormwater facility
<input type="checkbox"/> Boat Lift	<input type="checkbox"/> Dock / Pier	<input type="checkbox"/> Mining	<input type="checkbox"/> Swimming Pool
<input type="checkbox"/> Bridge	<input type="checkbox"/> Dredging	<input type="checkbox"/> Outfall Structure	<input type="checkbox"/> Utility Line
<input type="checkbox"/> Bulkhead	<input type="checkbox"/> Fence	<input type="checkbox"/> Piling

<input checked="" type="checkbox"/> Channel Modification	<input type="checkbox"/> Fishway		

Other:

6d. Describe how you plan to construct each project element checked in 6c. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year flood plain.

Dam repair/modification – Wooden flashboards will be replaced with precast concrete boards topped by a v notch weir designed to supplement summer flows.

Stream channel restoration – The stream channel will be elevated for approximately 753 lineal feet creating a 1% grade ending at the weir elevation. Fill will consist of relatively impervious material topped by suitable gravels. Pools and large woody debris will be installed as habitat features.

Culvert replacement – A failing barrier culvert in an unnamed tributary channel will be replaced using WDFW no slope criteria.

Flow bypass – A pipe and valve assembly will be installed to manage lake water levels.

Riparian planting – The stream channel will be planted with native trees and shrubs following the instream work.

See attached plans for details.

Monitoring - Spawning surveys, lake and stream temperature, stream flow, DO, lake levels, fish species composition studies (smolt trap, electrofishing, lake sampling), macroinvertebrate monitoring, vegetation

surveys, and project effectiveness monitoring.

Adaptive management - The weir and restored stream channel will be manually adjusted when needed to maximize streamflow, maintain lake levels and ensure fish passage. Typical adjustments will include adding/removing streambed rocks at the weir and beaver dam modification and removal.

Project area is not within a 100 year flood plain.

6e. What are the start and end dates for project construction? (month/year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Start date: July 1, 2012 End date: July 1, 2017 See JARPA Attachment D

6f. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

The project is designed to restore fish passage past the Terrell Creek dam allowing salmonids to reach valuable habitat in Butler Creek and other tributaries. The project will also supplement summer flows in the stream and will enhance habitat in the project reach by adding gravels and large wood.

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

\$125,000.00

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- If **yes**, list each agency providing funds.

Yes No Don't know Grant from the National Fish and Wildlife Foundation (partial funding from USFW)

Part 7–Wetlands: Impacts and Mitigation

- Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [\[help\]](#)

Not applicable

Work will be limited to the stream channels and adjacent upland areas. Wetlands adjacent to the project site will not be impacted.

7b. Will the project impact wetlands? [\[help\]](#)

Yes No Don't know

7c. Will the project impact wetland buffers? [\[help\]](#)

Yes No Don't know

7d. Has a wetland delineation report been prepared? [\[help\]](#)

- If **yes**, submit the report, including data sheets, with the JARPA package.

Yes No

7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [\[help\]](#)

- If **yes**, submit the wetland rating forms and figures with the JARPA package.

Yes No Don't know

7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [\[help\]](#)

- If **yes**, submit the plan with the JARPA package and answer 7g.
- If **No, or Not applicable**, explain below why a mitigation plan should not be required.

Yes No Not applicable

There will be not impacts to wetlands or wetland buffers.

7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [\[help\]](#)

Not applicable

7h. Use the table below to list the type and rating of each wetland impacted; the extent and duration of the impact; and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [\[help\]](#)

Activity (fill, drain, excavate, flood, etc.)	Wetland Name ¹	Wetland type and rating category ²	Impact area (sq. ft. or Acres)	Duration of impact ³	Proposed mitigation type ⁴	Wetland mitigation area (sq. ft. or acres)

¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

Page number(s) for similar information in the mitigation plan, if available: _____

7i. For all filling activities identified in 7h., describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

Not applicable

7j. For all excavating activities identified in 7h., describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

Not applicable

Part 8—Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, "waterbodies" refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

Not applicable

The project is designed to enhance the aquatic environment by removing fish passage barriers and restoring the stream channel. The project will take place during the driest part of the summer when the stream channel will be dry.

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

Yes No

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [\[help\]](#)

- If **yes**, submit the plan with the JARPA package and answer 8d.
- If **No, or Not applicable**, explain below why a mitigation plan should not be required.

Yes No Not applicable

Project will enhance aquatic functions.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g., you do not need to restate your answer here. [\[help\]](#)

Not applicable

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected
Dredge	Terrell Creek	Instream	Permanent	132 cubic yards	150 linear ft.
Fill	Terrell Creek	Instream	Permanent	1,590 cubic yards	753 linear ft.
Clear	Terrell Creek	Streambank	Temporary		10,000 sq. ft.

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e., describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

Broken concrete rip rap and mucky streambed soils will be removed prior to stream channel restoration and installation of bypass pipes. Material will be taken to a nearby commercial gravel pit.

A relatively impervious mix of fines, sands and gravels used to reconstruct streambed. A well sorted gravel mix will top then be installed as a streambed material. Fill materials will be imported from a nearby commercial gravel pit.

A minimal amount of brush and trees will be cleared to allow access to the project site. Riparian planting will follow construction in the impacted area and other areas along the stream.

None of the work will take place in the 100 year flood plain.

8g. For all excavating or dredging activities identified in 8e., describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [\[help\]](#)

Broken concrete rip rap and mucky streambed soils will be removed prior to stream channel restoration and installation of bypass pipes. Material will be taken to a nearby commercial gravel pit.

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [\[help\]](#)

Agency Name	Contact Name	Phone	Most Recent Date of Contact
WDFW	Jeff Kamps	(360) 466-4345 x 271	January 2012
USACOE	Randel Perry	(360) 734-3156	January 2012
Whatcom County PDS	Lyn Morgan-hil	(360) 676-6707 x50242	January 2012
WDOE Dam Safety Office	Doug Johnson	(360) 407-6623	January 2011

9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 on the Washington Department of Ecology's 303(d) List? [\[help\]](#)

- If **yes**, list the parameter(s) below.
- If you don't know, use Washington Department of Ecology's Water Quality Assessment tools at: <http://www.ecy.wa.gov/programs/wq/303d/>.

Yes No

9c. What U.S. Geological Survey Hydrological Unit Code (HUC) is the project in? [\[help\]](#)

- Go to <http://cfpub.epa.gov/surf/locate/index.cfm> to help identify the HUC.

171100020203

9d. What Water Resource Inventory Area Number (WRIA #) is the project in? [\[help\]](#)

- Go to <http://www.ecy.wa.gov/services/gis/maps/wria/wria.htm> to find the WRIA #.

1

9e. Will the in-water construction work comply with the State of Washington water quality standards for turbidity? [\[help\]](#)

- Go to <http://www.ecy.wa.gov/programs/wq/swqs/criteria.html> for the standards.

Yes No Not applicable

9f. If the project is within the jurisdiction of the Shoreline Management Act, what is the local shoreline environment designation? [\[help\]](#)

- If you don't know, contact the local planning department.
- For more information, go to: http://www.ecy.wa.gov/programs/sea/sma/laws_rules/173-26/211_designations.html.

Rural Urban Natural Aquatic Conservancy Other _____

9g. What is the Washington Department of Natural Resources Water Type? [\[help\]](#)

- Go to http://www.dnr.wa.gov/BusinessPermits/Topics/ForestPracticesApplications/Pages/fp_watertyping.aspx for the Forest Practices Water Typing System.

Shoreline Fish Non-Fish Perennial Non-Fish Seasonal

9h. Will this project be designed to meet the Washington Department of Ecology's most current stormwater manual? [\[help\]](#)

- If no, provide the name of the manual your project is designed to meet.

Yes No

Name of manual: 2005 manual for western washington

9i. If you know what the property was used for in the past, describe below. [\[help\]](#)

Property has been part of the Lake Terrell Wildlife Area for at least 60 years.

9j. Has a cultural resource (archaeological) survey been performed on the project area? [\[help\]](#)

- If yes, attach it to your JARPA package.

Yes No

9k. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [\[help\]](#)

Steelhead are listed with potential/historic presence in Terrell Creek but are not thought to exist in the project area.

9l. Name each species or habitat on the Washington Department of Fish and Wildlife's Priority Habitats and Species List that might be affected by the proposed work. [\[help\]](#)

Steelhead are listed with potential/historic presence in Terrell Creek but are not thought to exist in the project area.

Coho, Cutthroat and Chum may use the project area but have not been observed during spawning surveys.

Part 10–SEPA Compliance and Permits

Use the resources and checklist below to identify the permits you are applying for.

- Online Project Questionnaire at <http://apps.ecy.wa.gov/opas/>.
- Governor's Office of Regulatory Assistance at (800) 917-0043 or help@ora.wa.gov.
- For a list of agency addresses to send your application, click on the "where to send your completed JARPA" at <http://www.epermitting.wa.gov>.

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [\[help\]](#)

- For more information about SEPA, go to www.ecy.wa.gov/programs/sea/sepa/e-review.html.

A copy of the SEPA determination or letter of exemption is included with this application.

A SEPA determination is pending with WDFW (lead agency). The expected decision date is _____.

I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.) [\[help\]](#)

<input type="checkbox"/> This project is exempt (choose type of exemption below). <input type="checkbox"/> Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt? _____ <input type="checkbox"/> Other: _____
<input type="checkbox"/> SEPA is pre-empted by federal law.
10b. Indicate the permits you are applying for. (Check all that apply.) [help]
LOCAL GOVERNMENT
Local Government Shoreline permits: <input type="checkbox"/> Substantial Development <input type="checkbox"/> Conditional Use <input type="checkbox"/> Variance <input type="checkbox"/> Shoreline Exemption Type (explain): _____
Other city/county permits: <input type="checkbox"/> Floodplain Development Permit <input checked="" type="checkbox"/> Critical Areas Ordinance
STATE GOVERNMENT
