

WASHINGTON DEPARTMENT OF FISH AND WILDLIFE
Application for Planting Triploid Grass Carp

1. Name of Applicant or Organization Kevin Litton - Zillah Lake Property Owners Assoc.
2. Address 709 Merwin Ct Day Phone: 509-952-1521
3. Name of Lake or Pond to be Planted: Zillah Lakes
4. County: Yakima Township: 11 Range: 20 Section: 22

Note: A photocopy of a county map showing rivers and streams at the proposed planting location MUST be provided with this application.

5. Size of lake or pond (1 acre= 208 X 208 ft.) 16 acres Max Depth (ft) 10ft
6. Does this pond or lake have public access provided by the city, county, state or federal government or other publicly owned municipality? YES ___ NO X
(Answer "NO" for golf course, sewage treatment or fish culture ponds and power or irrigation canals).
If you answered "NO", go to #8

7. If you answered "YES" to number 6, are the results of a Lake Restoration Feasibility Study included?
YES ___ NO ___

If you answered "YES" go to # 10 and skip #11.

If you answered "NO", a permit cannot be issued until the standards for a lake restoration study have been met. Please contact your local WDFW regional office to proceed with this study.

8. Total number of waterfront property owners: 18
9. Number of waterfront property owners that support 18 or oppose 0
Proposed planting of triploid grass carp.

Note: The names, addresses and phone numbers of all waterfront property owners and whether or not they support the proposed grass carp introduction MUST be provided with this application.

10. Have all outlets and/or inlets been screened? YES N/A NO ___ No out/in lets on Man Made Lake
If you answered "NO" you must apply for a Hydraulic Project Approval (HPA) before installing screens. **The Department of Fish and Wildlife will not issue a permit to plant triploid grass carp into waters with unscreened outlets.** If the proposed lake or pond is greater than 20 acres, other permits from the county of jurisdiction may be required to install screens. Please contact your Department of Fish and Wildlife Regional Office for additional direction on this requirement.

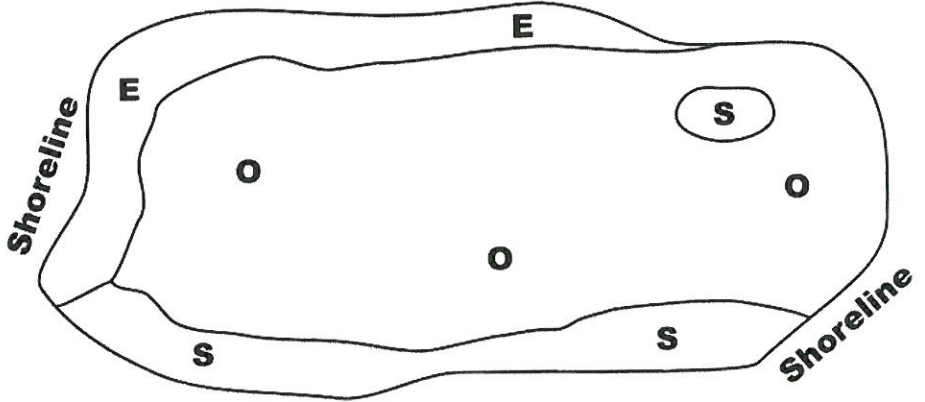

11. Please draw a map of the lake or pond as close to scale as possible on the attached sheet. Draw in vegetation types that are present. This map will assist our biologists in determining how many fish to plant into your pond or lake.

Signature of Applicant Kevin Litton Date 5/21/12

MAP OF LAKE OR POND

Please include distribution of each vegetation type. Irrigation and power canal applicants need only provide estimated acres of each plant type.

Please use the space below to draw a map of your water as close to scale as possible. Also draw in the approximate areas that are covered by each type of plant and properly label each. **Plant coverage estimates should be made in July or August or from your best recollection of that time period.**

E- Emergent Plants
S- Submerged Plants
O- Open Water

E - Emergent Plants
completely surround
Lake & appear in
spots in middle of
Lakes. Milfoil &
Curly leaf Pondweed.

Name of Lake or Pond Zillah Lakes

State of Washington
DEPARTMENT OF FISH AND WILDLIFE

Mailing Address: 600 Capitol Way N - Olympia, Washington 98501-1091 - (360) 902-2200, TDD (360) 902-2207
Main Office location: Natural Resources Building - 1111 Washington Street SE - Olympia, WA

Triploid grass carp may be planted in the State of Washington after the required permits and documents are approved. These permits and documents include:

1. Approval to plant triploid grass carp from the Washington Department of Fish and Wildlife (WDFW)
2. A State Environmental Policy Act (SEPA) determination.
3. Lake Restoration Study (ONLY if lake or pond is public)
4. Hydraulic Project Approval (ONLY if screening is required) (This is an approval that comes only after SEPA is satisfied)
5. Documentation from the United States Fish and Wildlife Service verifying the fish being planted are certified disease free triploid grass carp. (You will receive this from the vendor distributing the fish)

The following documents are needed to apply for a permit to plant triploid grass carp. Please follow the instructions below to ensure your application will be processed quickly.

1. The Washington Department of Fish and Wildlife Application for Planting Triploid Grass Carp. (Attached) Follow all instructions and provide accurate answers for each question.
2. A completed Environmental Checklist (attached). We have provided you with information for several of the questions on that list. You must provide the section, township and range of the water body, a daytime phone number where you can be reached, in the event we have questions and sign and date the checklist.
3. The Washington Department of Fish and Wildlife Fish Transport Application/Permit (Attached) After WDFW staff has completed their on-site evaluation and you have satisfied the State Environmental Policy Act (SEPA) process, you will need to complete this application and mail it to the regional Fish and Wildlife office in your area. **There is a \$24 fee that needs to accompany this application.**
4. If your lake or pond is public, the results of a lake restoration study must be provided to the WDFW. Please consult with your local WDFW regional office for additional direction on how to proceed with this requirement.
5. If the body of water to be planted with grass carp flows into another body of water, it will have to be screened. If the waterbody has to be screened you will need a Hydraulic Project Approval (HPA), to obtain said approval you will need to complete a JARPA form. Please consult with your local WDFW regional office prior to installing a screen for additional direction on this requirement.

***Please send all documents to the Department's regional office, which has jurisdiction in the county of your lake or pond. Your application may take approximately six to eight weeks to process. If you have any questions, please contact the same regional office where you submitted your application.**

HABITAT PROGRAM

Name of Applicant Kevin Litton – Zillah Lake Property Owners Association
Name of Water Zilla Lakes (private lakes near Zilla, WA)

Area Fish Biologist Recommendation

Approve X Deny _____

Comments: Recon surveyed on Thursday, May 24th with Kevin Litton. This is a closed system, 16 acre pond oriented in the uplands near Zilla between Yakima Valley Highway and Interstate 82. The pond is a maximum of 10 feet deep, has no inlet or outlet and is fed by groundwater seepage. There is a small stream/drain nearby, but it is not connected to the pond in any way and there does not appear to be any flood concerns. The pond had an abundance of curly leaved pondweed and northern milfoil, both preferred foods of grass carp. I recommend approval for stocking sterile grass carp in the Zilla Ponds at the rate of 9 fish per surface acre (total 144 fish). The fish must be purchased from an approved vendor, be certified disease free and be a minimum of 8 inches in length.
