Mr. Steve Bell
WA Department of Fish and Wildlife
Regulatory Services Section
600 Capitol Way North
Olympia, WA 98501-1091

Dear Mr. Bell:

Thank you for the opportunity to comment on the determination of nonsignificance for the Pacific County Access Maintenance Project (DNS 16-006) located on Highway 105 east of Tokeland in Pacific County as proposed by Chris Gourley, WA Department of Fish and Wildlife (WDFW). The Department of Ecology (Ecology) reviewed the environmental checklist and has the following comment(s):

TOXICS CLEANUP: Matthew Morris (360) 407-7529

If contamination is suspected, discovered, or occurs during the proposed boat ramp replacement, testing of the potentially contaminated media must be conducted. If contamination of sediment, soil, or groundwater is readily apparent, or is revealed by testing, Ecology must be notified. Contact the Environmental Report Tracking System Coordinator at the Southwest Regional Office (SWRO) at (360) 407-6300. For assistance and information about subsequent cleanup and to identify the type of testing that will be required, contact Matthew Morris with the SWRO, Toxic Cleanup Program at the phone number given above.

REVIEWER: Sonia Mendoza

WATER QUALITY CONTACT: Derek Rockett (360) 407-6697

Erosion control measures must be in place prior to any clearing, grading, or construction. These control measures must be effective to prevent stormwater runoff from carrying soil and other pollutants into surface water or stormdrains that lead to waters of the state. Sand, silt, clay particles, and soil will damage aquatic habitat and are considered to be pollutants.

Mr. Steve Bell
