Lisa Wood, SEPA/NEPA Coordinator
WA State Department of Fish & Wildlife
Regulatory Services Section
600 Capitol Way North
Olympia, WA 98501-1091

Dear Ms. Wood:

Thank you for the opportunity to comment on the determination of nonsignificance for the Montesano Boat Ramp Repair Project (DNS 16-021) located at Highway 107 in Montesano as proposed by Marty Peoples, WA State Department of Fish and Wildlife (WDFW). The Department of Ecology (Ecology) reviewed the environmental checklist and has the following comment(s):

TOXICS CLEANUP: Kirsten Alvarez (360) 407-6246

If contamination is suspected, discovered, or occurs during the proposed SEPA action, testing of the potentially contaminated media must be conducted. If contamination of soil or groundwater is readily apparent, or is revealed by testing, Ecology must be notified. Contact the Environmental Report Tracking System Coordinator at the Southwest Regional Office (SWRO) at (360) 407-6300. For assistance and information about subsequent cleanup and to identify the type of testing that will be required, contact Kirsten Alvarez with the SWRO, Toxic Cleanup Program at the phone number given above.

Ecology's comments are based upon information provided by the lead agency. As such, they may not constitute an exhaustive list of the various authorizations that must be obtained or legal requirements that must be fulfilled in order to carry out the proposed action.

If you have any questions or would like to respond to these comments, please contact the appropriate reviewing staff listed above.
