The Washington Department of Fish and Wildlife (WDFW) appreciates the Department of Ecology's timely and helpful comments regarding the Rocky Ford Bridge replacement project. WDFW appreciates the guidance from the Hazardous Waste and Toxic Reduction Program and will ensure all aspects of this important program are incorporated into the project implementation. WDFW has initiated contact with Grant County to ensure all aspects of the Shorelands and Environmental Assistance Program-Floodplains are coordinated and consistent with their County ordinances.

Again thank you for Ecology's thoughtful remarks and guidance.

Larry Peck
