Thank, you Jacob.

I will make sure that I apply for and obtain the permits. I appreciate the information.

Thanks again,

Chris Gourley

Chris,

We understand there will be no work done to the approaches or inside WSDOT right-of-way; however, updating the approach permits is still a requirement. There is no cost associated with this process and it is intended to benefit the landowner. Making the approaches “permitted” rather than “grandfathered” will help to preserve the existing access configuration into the future.

Subject: DNS-17-020 Comment - Tim's Pond

Hello,

We have received WSDOT’s comments regarding the project proposed at Tim’s Pond. In response to your comment, please understand that no work will be done on the grandfathered approaches already present at the site. WDFW will coordinate with WSDOT where required to complete the

project.

Thank you,

Chris Gourley
