Andrew, thank you for your comments for the SEPA DNS for the Winchester Wasteway Boat Launch Relocation proposed by WDFW. I have read and considered your comment regarding the Hazardous Waste and Toxics Reduction Program. I have reviewed the list of possible hazardous and demolition wastes at the 'Common Construction and Demolition Wastes website' and determined that there will be none of these listed materials on site during our boat launch relocation project on the Winchester Wasteway.

Thanks again for your comments,

Joe Graves, Maintenance Mechanic 2, [Joseph.Graves@dfw.wa.gov](mailto:Joseph.Graves@dfw.wa.gov)
