### **ADDENDUM 17-023 TO DETERMINATION OF NONSIGNIFICANCE (DNS) 12-011 DATED: FEBRUARY 28, 2012**

**Name of Proposal:** DNS 12-011: BEEBE SPRINGS PHASE 4A DEVELOPMENT

#### **Description of Original Proposal:**

This project is to improve access to the Chelan Hatchery and improve habitat conditions in Beebe Springs Creek, Chinook Spring, and Toad Creek. Projects include streambed and riparian vegetation restorations. It also includes installation of a new trail with signage with 250 square feet of crushed rock trail through Wetland F with fill of approximately 112 square feet of Wetland F. The proposed hiking trail would connect the Chelan Hatchery with the scenic areas in the vicinity of Toad Creek, and on top of the adjacent bluff. The portion of the trail along the low-lying part of the site is planned to be ADA accessible. This is an expansion of work previously proposed in DNS #11-094 BEEBE SPRINGS NATURAL AREA ACCESS DEVELOPMENT issued November 22, 2011.

#### **Description of Addendum 17-023:**

The Department of Fish and Wildlife's pedestrian bridge, built under DNS 12-011, and located at the Beebe Springs Wildlife Area was completely destroyed during the Chelan Complex fire of 2015. The 26 foot long and 6 foot wide timber framed bridge was supported by concrete ecology block abutments and spanned over Toad creek. The bridge deck and railings were a total loss and the abutments and anchor attachments were exposed to high enough heat to cause possible cracking. All remaining material including the existing abutments shall be removed and replaced with new abutments and bridge deck surface.
