Hi Lisa,

My friends and family use the Rowland Lake Boat Ramp each and every year and have been doing so for more than three decades. I like and appreciate the improvements you have suggested. I also believe there needs to be some lower tree limb removal and brush trimming as part of the project. In case you don't know, the area is infested with poison oak/ivy and the heavy brush infested with ticks. I see many visiting anglers walking through the brush to fish or access their camping spot and know they are risking a tick bite. I'm not suggesting native plant specie be removed just trimmed back - the area needs a hair cut.

Sincerely,

Buzz Ramsey
