Name of Proposal: DNS 18-013: TEANAWAY FAMILY FARM RESTORATION -
REVISED

Description of Proposal:

This project will construct a parking area 70'x100' with a 140' in length access road leading from the county road. The parking area will accommodate 20 cars and provide room for trucks with trailers to turn around. Surface will be compacted angular rock. Boulders will be placed around perimeter in a manner that will contain all vehicles to the parking area. A readerboard will be constructed at the south end of the parking lot.

A new wildlife friendly, barbless wire, fence will be constructed along property boundaries and county right of ways. The top wire of the fence will be less than 4' from the ground and the total fence length will be roughly a mile. The fence will include a gap for public access and a gate for administrative access to an agricultural field.

This project will remove 2 unnecessary culverts, 4 buildings, 1 yard fence, and remnants of an old corral.

- 1 shed, ~500 square feet, built in 1948.
- 1 pump house, ~100 square feet.
- 1 outdoor oven made of cinder block with a tin roof, ~20 square feet.
- 1 corral remnant made entirely of wood, ~70 linear feet which includes the loading chute.
- 1 yard fence which encompasses the house, ~600 linear feet.

The project will convert a 38-acre hay field to a proper functioning floodplain and grassland. This will include chemically removing weedy species and reseeding with desirable species.
