

**ENVIRONMENTAL CHECKLIST
(WAC 197-11-960)**

A. BACKGROUND

1. Name of proposed project if applicable:

Plant triploid (sterile) grass carp to control aquatic vegetation.

2. Name of applicant: Scott A VanderStaay

3. Address and phone number of applicant and contact person:

- 7135 Sideny Rd SW Port Orchard Wa. 98367
- 360-731-8041

4. Date of checklist prepared: 1/23/18

5. Agency requesting checklist: Washington Department of Fish and Wildlife

6. Proposed timing or schedule (include phasing, if applicable): **I would like to have the fish planted as soon as the permitting process is complete and a permit is issued.**

7. Do you have any plans for future additions, expansions or further activity related to or connected with this proposal? If yes, explain: **YES, may need to restock, in five years or more, due to predation or natural die off.**

8. List any environmental information you know about that has been prepared or will be prepared, directly related to this proposal: **WDFW – Application for planting Triploid Grass Carp, Certificate from U.S. F. W Service that the fish shipped are triploids (sterile) and certification that the fish shown no sign of disease.**

9. Do you know whether applications are pending for government approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: **There are none.**

10. List any government approvals or permits that will be needed for your proposal, if known:

- a. **Planting permit from Washington Department of Fish and Wildlife.**
- b. **Certificate from U.S. Fish and Wildlife Service that the fish shipped are triploids (sterile) and certification that the fish show no sign of disease.**

11. Give a brief, complete description of your proposal, including the proposed use and the size of the project. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to answer those on this page.

a. Plant triploid grass carp to control aquatic vegetation.

12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including: **street address, if any, and section, township and range (required)**. If a proposal would occur over a range of areas, provide the range or boundaries of the site(s). Provide a legal description and site plan, if reasonably available. **A copy of a vicinity map or topographic map is required**. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. Street Address: 7135 Sidney Rd SW Port Orchard WA, 98367. **Please see attached (3 sheets) location map, vicinity plan and short plat for this property.**

Kitsap County; T23N, R1E, S14

ENVIRONMENTAL ELEMENTS

1. EARTH

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other:
- b. What is the steepest slope on the site (approximate percent slope)? 2:1 (side slope into a ditch) The property is typically gently sloping pasture land.
- c. What general types of soils are found on the site (for example: clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and not any prime farmland. Organic Topsoil, Sand, Gravel and Clay.
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe: No
- e. Describe the purpose, type and approximate quantities of any filling or grading proposed. Indicate source of fill. Does not apply.
- f. Could erosion occur as a result of clearing, construction or use? If so, generally describe: Does not apply.
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example: asphalt or buildings)? Does not apply.
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: Does not apply.

2. AIR

- a. What type of emissions to the air would result from the proposal (for example: dust automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. **Does not apply.**
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe: **Does not apply.**
- c. Proposed measures to reduce or control emissions or other impacts to air, if any: **Does not apply.**

3. WATER

a. Surface

1. Is there any surface water body on the immediate vicinity of the site (including year-round and season streams, saltwater, lakes, ponds or wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. **The VanderStaay Pond. The outfall wenders for approximately 1/2 mile through pasture ditches and eventually discharges into Black-Jack Creek.**
2. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. **The Triploid Grass Carp will be planted into the VanderStaay Pond.**
3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. **Does not apply.**
4. Will the proposal require surface water withdrawals or diversions? Give general description, purpose and approximate quantities if known. **Does not apply.**
5. Does the proposal lie within a 100-year floodplain? YES **NO**
If yes, note location on the site plan.
6. Does the proposal involve any discharges of waste material to surface waters? If so, describe the type of waste and anticipated volume of discharge. **Does not apply.**

b. Ground

1. Will ground water be withdrawn or will water be discharged to ground water? Give general description, purpose and approximate quantities, if known. **Does not apply.**

2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage, industrial, containing the following chemicals, agricultural). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable) or the number of animals or humans the system(s) are expected to serve. **Does not apply.**

c. Water Runoff (including storm water):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. **Does not apply.**
2. Could waste materials enter ground or surface waters? If so, generally describe. **Does not apply.**
3. Proposed measures to reduce or control surface, ground and runoff water impacts, if any: **Does not apply.**

4. PLANTS

- a. Check or circle types of vegetation found on the site:

_____ deciduous tree: alder, maple, aspen, other
_____ evergreen tree: fir, cedar, pine, other
X _____ shrubs
X _____ grass
X _____ pasture
_____ crop or grain
X _____ wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
X _____ water plants: water lily, eelgrass, milfoil, other
_____ other types of vegetation

- b. What kind and amount of vegetation will be removed or altered? **The only vegetation that will be removed is what the Triploid Grass Carp eat.**
- c. List threatened and endangered species (of plants) known to be on or near the site. **I do not know.**
- d. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site if any: **Does not apply.**

5. ANIMALS

- a. Circle any birds or animals that have been observed on or near the site or are known to be on or near the site:

Birds: **hawk, heron, eagle, songbirds,** other: **Water Fowl**

Mammals: deer, bear, elk, beaver, other:

Fish: **bass,** salmon, trout, herring, shellfish, other: _____

- b. List any threatened or endangered species known to be on or near the site. **I do not know.**
- c. Is the site part of a migration route? If so, explain. **No.**
- d. Proposed measures to preserve and enhance wildlife, if any: **Does not apply.**

6. ENERGY AND NATURAL RESOURCES

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used in order to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. **Does not apply.**
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. **Does not apply.**
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: **Does not apply.**

7. ENVIRONMENTAL HEALTH

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste that could occur as a result of this proposal. **Does not apply.**
 - 1. Describe special emergency services that might be required. **Does not apply.**
 - 2. Proposed measures to reduce or control environmental health hazards. **Does not apply.**

b. Noise

- 1. What types of noise exist in the area that may affect your project (for example: traffic, equipment, operation, other)? **Does not apply.**
- 2. What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. **Does not apply.**
- 3. Proposed measures to reduce or control noise impacts, if any: **Does not apply.**

8. LAND AND SHORELINE USE

- 1. What is the current use of the site and adjacent properties? **Single family residence(s) and pasture. Typical 5 acre parcels.**
- 2. Has the site been used for agriculture? If so, describe? **Pasture.**
- 3. Describe any structures on the site. **One single family residence, two garages and two sheds.**

4. Will any structures be demolished? If so, what? **No**
 5. What is the current zoning classification of the site? **Rural Residential (1 DU/5 AC)**
 6. What is the current comprehensive plan designation of the site? **Rural Residential**
 7. If applicable, what is the current shoreline master program designation of the site? **Does not apply.**
 8. Has any part of the site been classified as an “environmentally sensitive” area? If so, specify. **No, not to my knowledge.**
 9. Approximately how many people, would reside or work in the completed project? **Does not apply.**
 10. Approximately how many people would the completed project displace? **Does not apply.**
 11. Proposed measures to avoid or reduce displacement impacts, if any: **Does not apply.**
 12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: **Does not apply.**
9. HOUSING
1. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing. **Does not apply.**
 2. Approximately how many units, if any would be eliminated? Indicate high, middle or low-income housing. **Does not apply.**
 3. Proposed measures to reduce or control housing impacts, if any: **Does not apply.**
10. AESTHETICS
1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? **Does not apply.**
 2. What views in the immediate vicinity would be altered or obstructed? **Does not apply.**
 3. Proposed measures to reduce or control aesthetic impacts, if any: **Does not apply.**
11. LIGHT AND GLARE
1. What type of light or glare will the proposal produce? That time of day would it mainly occur? **Does not apply.**

2. Could light or glare from the finished project be a safety hazard or interfere with views? **Does not apply.**
3. What existing off-site sources of light or glare may affect your proposal? **Does not apply.**
4. Proposed measures to reduce or control light and glare impacts, if any: **Does not apply.**

12. RECREATION

1. What designated and informal recreational opportunities are in the immediate vicinity? **Fishing and swimming.**
2. Would the proposed project displace any existing recreational uses? If so, describe. **No**
3. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any: **Does not apply.**

13. HISTORIC AND CULTURAL PRESERVATION

1. Are there places or objects listed on, or proposed for, national, state or local preservation registers known to be on or next to the site? If so, generally describe. **No**
2. Generally describe any landmarks or evidence of historic, archaeological, scientific or cultural importance known to be on or next to the site. **None**
3. Proposed measures to reduce or control impacts, if any: **Does not apply.**

14. TRANSPORTATION

1. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. **Existing, private, multifamily (3 families) driveway connecting to SE Sedgwick Rd. See attached vicinity map.**
2. Is the site currently served by public transit? If no, what is the approximate distance to the nearest transit stop? **No, the closest known transit stop is approximately ¼ mile away.**
3. How many parking spaces would the completed project have? **Does not apply.**
4. How many would the project eliminate? **Does not apply.**
5. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private). **Does not apply.**

6. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. **Does not apply.**
7. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur **Does not apply.**
8. Proposed measures to reduce or control transportation impacts, if any: **Does not apply.**

15. PUBLIC SERVICES

1. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. **Does not apply.**
2. Proposed measures to reduce or control direct impacts on public services. **Does not apply.**

16. UTILITIES

1. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other: **None**
2. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity that might be needed. **Does not apply.**

17. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

SIGNATURE:

Eric A. Van Dyke
