DETERMINATION OF NONSIGNIFICANCE (DNS)

Name of Proposal: DNS 18-060: LAKE LAWRENCE ACCESS REDEVELOPMENT

Description of Proposal:

Washington Department of Fish and Wildlife proposes to upgrade the WDFW owned Lake Lawrence Access Site located in southeast Thurston County. The existing site is a one acre parcel located next to the undeveloped Lake Lawrence County Park. The existing site includes a gravel parking area, two vault toilets and a single concrete boat launch. The proposed improvements include asphalt paving the gravel parking area, removal of the existing concrete launch, installation of concrete launch in new location, removal of the existing vault toilets, installation of a new double vault toilet in the same footprint as the existing, removal and installation of 6 ft chain-link fence on the property line, installation of ADA parking spaces, installation of one 6'x20' concrete abutment, installation of three 6'x20' floats, and two 8" steel pilings. Piles will be installed using a pile driver.

Storm water improvements include curbing, filter strips, grass lined ditches, and catch basins. Construction storm water will be controlled by use of wattle dams and a turbidity curtain surrounding the in-water work. Disturbed areas on site will be grass seeded. Three black cottonwood trees and one western red cedar tree will be removed as well as an area of English ivy along the west fence line. A total of six, 5-gallon Western red cedar trees will be planted at 10 ft on center, where the other trees were removed.
