Re: DNS 18-072

Dear Lisa Wood:

Thank you for the opportunity to comment on the determination of nonsignificance for the Wenatchee Line Pipe Exposure Repair – MP 131 project, proposed by Northwest Pipeline, LLC. We have reviewed the documents and have the following comments.

WATER QUALITY

Erosion control measures must be in place prior to any clearing, grading, or construction. These control measures must prevent stormwater runoff from carrying soil into surface waters or into stormwater drains that may discharge directly to surface water. Sand, silt, and soil will damage aquatic habitat and are considered pollutants.

If you have any questions concerning the Water Quality comments, please contact **Wendy Neet** at (509) 454-7277 or email at wendy.neet@ecy.wa.gov.

Sincerely,

Gwen Clear
