Ms. O'Neal,

Attached is Northwest's responses to WDNR's comments on the Wenatchee Line Pipe Exposure. I have also attached the design drawings and the geotechnical report.

Northwest's Land Agent has been in touch with Matt Fromherz, and I have left a message for him to discuss the project as well. As stated in the attached response, we will continue to work with Mr. Fromherz as Project planning and permitting progresses.

Please let me know if WDNR needs additional information or has additional comments. I will work with the Project team to provide a response as soon as possible.

Sincerely,

Halli Harris | [Williams](#) | Senior Environmental Scientist | Northwest Pipeline LLC, Natural Resources
