**ADDENDUM 18-075 TO DETERMINATION OF NONSIGNIFICANCE (DNS) 18-069
DATED: NOVEMBER 29, 2018**

Name of Proposal: DNS 18-069: CAMPBELL LAKE ACCESS REDEVELOPMENT

Description of Original Proposal:

The Campbell Lake Access Area is one of the water access sites in Skagit County. The project will provide for a better user experience with the following renovations: remove the failed boat ramp planks (roughly 11CY of material), replace it with a new boat ramp with articulated concrete mats on all sides (roughly 34CY of material); add a boarding float (6' by 60') with a 6' by 24' concrete abutment adjacent to the new ramp; remove the existing vault toilet, replace the vault toilet with a new CXT pre-cast Tioga double ADA compliant vault toilet; resurface existing asphalt road and parking area (roughly 25,064 SF), add a new asphalt parking area (roughly 4,908 SF); relocate existing barrier rock; add a new metal roof-covered picnic shelter (15' by 23' with 2 picnic tables); remove some existing paving and gravel and replace the area with a grass filter strip (3,370 SF).

Description of Addendum 18-063:

An additional float, measuring 8' by 20' will be added perpendicular to the end of the proposed float, forming a "L" shape, to allow for user groups to have more access to deeper waters. This will also include an additional pile to secure the panel. These additions can be seen in details on Sheet 8 of the attached revised plan set. No other alterations or additions are proposed.
