Good Morning!

Thank you for the comments regarding SEPA DNS 19-012, the Hurd Creek Hatchery Relocation. WDFW looks forward to a new hatchery with the majority of the infrastructure located outside the Dungeness CMZ upon completion.

WDFW is working with Clallam County planner Greg Ballard to obtain all necessary county permits, including compliance with the Shoreline Master Program.

WDFW does not expect any issues with erosion or stormwater. The point of discharge for this hatchery will change and the NPDES will be amended as necessary.

We thank you for your time and comments and look forward to working with Ecology on this project.

Thank you,

Doug Wiedemeier
