---

Hi Morgan, thank-you for reviewing our project at the Dungeness Hatchery and for passing on comments from ECY's Water Quality/Watershed Resources Unit. WDFW has erosion control measure in the design and will make sure they are installed and compliant with existing stormwater regulations. These erosion control measures will be inspected daily to ensure proper functioning. WDFW will not discharge sediment laden water to waters of the state and will not disturb more than 1 acre of ground. If design changes occur, WDFW will reassess the CSGP requirements and make sure we are compliant with permitting requirements.

Thank-you again for your comments and help on this project,

Marty Peoples  
Fish and Wildlife Biologist  
WDFW CAMP Program  
360-902-8426

**Importance:** High

Lisa Wood, SEPA/NEPA Coordinator:

Thank you for the opportunity to comment on the Dungeness Hatchery Intake Replacement Project (Statewide SEPA Register No. 201901432). Ecology's comments are attached. Comments are due today March 29, 2019.

Thank you,

**Morgan Dorner**
